STI takes delivery of new trailers

Fort Wayne, Indiana. – STI will be taking delivery of one hundred new fifty-three foot flat floor trailers throughout the next few weeks. These trailers will assist with needed capacity for STI and are equipped with state-of-the-art safety features.

“We have laid out ambitious goals to expand our service capabilities and this is another significant milestone in this effort,” says Rob Shearer, President and CEO. “The new trailers will allow STI to continue to offer excellent service to our customers.”

“The features on these trailers show STI’s continuous commitment to safety and the environment. Safety is the number one focus for STI,” continued Shearer.

The trailers offer many additional features including double slot logistics and slotted scuff liner which keeps customers shipments safely secured.

STI is a Fort Wayne, Indiana, specialized transportation company and a leader in providing quality services for products requiring special handling, specialized equipment, on-site services and transportation. The company services both less-than-truckload and truckload shipments throughout the United States and Canada. Service offerings include specialized transportation, residential delivery, final mile delivery, transportation management, and warehousing.
